THE INVALID'S FRIEND.

HOLLOWAY'S PILLS.

Nervous Disorders.

What is more fearful than a breaking down of the
nervous system? To be excitable or nervous in a small
degree is most distressing, for where can a remedy be
found? Here is one.—Drink but little wine, beer or
spirits, or far better, abstain from them altogether; do
not take coffee—weak tea is preferable; get all the
fresh air you can; take three or four of these Pills
every night; eat plenty of solids, and avoid the use of
spices. If these golden rules are followed, you will be
happy in mind, strong in body, and forget you have
any nerves.

Mothers and Daughters.

If there is one thing more than another for which
these Pills are so famous it is their purifying properties,
especially their power of cleansing the blood from all
impurities, and removing dangerous, and renewing sus-
pended secretions. Universally adopted as the one
grand remedy for female complaints, these Pills never
fail, never weaken the system, and always bring about
what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they
secrete too much or too little water; or whether they
are afflicted with stone or gravel, or with aches and pains
settled in the loins over the region of the kidneys, these
Pills should be taken according to the printed direc-
tions, and the Ointment should be well rubbed into the
small of the back at bed time. This treatment will give
almost immediate relief after all other means have failed.

The Stomach out of Order.

No medicine will so effectually improve the tone of
the stomach as these Pills; they remove all acidity, oc-
casioned either by intemperance or improper diet. They
reach the liver, and reduce it to a healthy action; they
are wonderfully efficacious in cases of spasms—in fact
they never fail in curing all disorders of liver & stomach.

Bronchitis, Diphtheria, Coughs, Colds.

No diseases are more frequent, few more dangerous,
than affections of the respiratory organs. The first
symptoms of disordered action may always be remedied
by Holloway's renowned Pills. They quickly remedy
any temporary stagnation of blood, relieve any over-
gorged veins, moderate the hurried breathing and enable
the windpipe and lungs to perform their functions with
ease and regularity. These Pills, by their purifying
powers, cleanse the blood from all impurities, and thus
fortify the system against consumption, asthma, and
other pulmonary complaints.

Debilitated Constitutions.

In cases of debility, languor and nervousness, gener-
ated by excess of any kind, whether mental or physi-
cal, the effect of these Pills is in the highest degree
bracing, renovating and restorative. They drive from
the system the morbid cause of disease, re-establish
the digestion, regulate all the secretions, brace the
nervous system, raise the patient's spirits, and bring back
the frame to its pristine health and vigour.

**Biliousness, Loss of Appetite, Head-
ache and Lowness of Spirits.**

These Pills effect a truly wonderful change in debili-
tated constitutions as they create a healthy appetite,
correct indigestion, remove excess of bile, and over-
come giddiness, headache, and palpitation of the heart.

Holloway's Pills are the best remedy known in the world
for the following diseases:—

Ague	Female Irreg- ularities	Retention of Urine
Asthma	Fever of all kinds	Scrofula, or King's Evil
Bilious Complaints	Fits	Sore Throats
Blotches on the skin	Gout	Stone and Gravel
Bowel Complaints	Head-ache	Secondary Symp- toms
Colic	Indigestion	Tic Douloureux
Constipation of the Bowel	Inflammation	Tumours
Consumption	Jaundice	Ulcers
Debility	Liver Com- plaints	Veneral Affections
Dropsy	Lumbago	Worms of all kinds
Dysentery	Piles	Weakness, from whatever cause, &c., &c.
Erysipelas	Rheumatism	

Sold at the establishment of Professor Holloway,
244, Strand, (near Temple Bar) London: also by all
respectable Druggists and Dealers in medicines through-
out the civilized world, at the following prices:—1s.
1j6., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Box.

The British Columbian.

NEW WESTMINSTER, THURSDAY, JUNE 1, 1865.

THE LATE CELEBRATION.

An event which will constitute a sort of epoch in the history of British Columbia has just transpired amongst us. Celebrations and anniversary ceremonies are, generally speaking, of very little real utility. Mere matter of amusement and empty form, they pass away with the day which gives them birth. So far as the white population is concerned we are not disposed to make the celebration of the past week an exception to the general rule. It is very well to have an occasional holiday; and it is peculiarly pleasing when we can employ it in amusements and exercises which at once mark our loyal attachment to the person and government of the best of Sovereigns and tend to harmonise the various sections of the British family, away in this distant colony, by indulging in social festivities in which all those petty distinctions of caste are, or at least ought to be, sunk for the nonce. But the celebration in which we have been participating possesses an element of an infinitely more important character than all this. Five thousand Indians, more or less, with eighty chiefs, representing as many villages, gathered to join as one family in commemorating the birth of Queen Victoria, is, indeed, an event entitled to something more than a passing notice. In all departments of society, whether in the domestic circle, the religious community or in the great family of nations, the advantages of personal intercourse are recognised. What else was the World's Fair of 1851 but a social gathering, affording the various members of the human family an opportunity to get rid of some of those prejudices and misapprehensions which an imperfect acquaintance had given rise to. The gathering of last week may not unfrequently be considered as a world's fair to the aboriginal inhabitants of this colony, leading to a better acquaintance with the whites, and to intertribal intercourse never before existing amongst themselves. The representatives of the semi-civilized nations who visited the great fair alluded to in the old world were perhaps less astonished at what they saw than were the representatives of our interior tribes last week. The mountaineer who had never seen anything more formidable than a canoe upon the inland waters must indeed have been struck with the sight of a steam war ship, with yards manned and guns belching forth fire and smoke. The great difficulty in dealing with the Indians has been the absence of any means by which they could be made acquainted with the feelings and intentions of the governing power towards them, and by which they might be impressed with the superiority of the whites and the advantages of the civilization which we offer to them, a difficulty which has been greatly aggravated by the fact that the "whisky seller" has preceded the Christian missionary, and that the specimens of the white man of which they have seen the most, and from which they have, in many instances, been left to form an estimate of the whole, have not been of such a character as to inspire them with the most exalted views as to our moral or social status. It is from this standpoint that we see the importance of the recent gathering. Intertribal prejudices will have disappeared. Misapprehensions respecting the whites will have been dissipated, and these people will have returned to their homes and their people wiser and better men, carrying with them the seeds of civilization, not only in the impressions received from what they saw and heard, but in the implements of husbandry and handicraft and agricultural seeds wisely given to them by the Government. Thus a beginning has been made which, if properly followed up, cannot fail to eventuate in the full fruition of all our hopes and wishes respecting the aborigines of this our adopted country. With one thing the most cursory observer must have been struck during the past week. Although the number of Indians assembled here fell very much below what we had been led to expect—from the best data there would appear to have been no more than five thousand—yet their appearance and general demeanor indicated a very great improvement upon the previous year. There were very many more temperance banners, while the Indians were better dressed, better housed and better behaved—presented a more civilized appearance, in fact. During all the time they were here we neither saw nor heard of a drunken or disorderly Indian, while the native

constables, employed for the occasion, arrested and brought to justice more than one disorderly white man. Would we have been able to say as much had our visitors been whites? We fear not. Let us, then, support the Governor in the judicious policy towards the native tribes which His Excellency appears disposed to adopt. Of course this is but a commencement. We hope to see matters more systematized, and all the tribes reached. But this requires a little time and management. The various photographic views taken upon the occasion will doubtless reach home and find their way into the illustrated papers; and we are sure the Aborigines Protection Society will be gratified to observe the readiness with which Governor Seymour is devoting himself to the improvement of the native tribes of this colony. It is presumable that it is His Excellency's intention to visit many of these tribes in their own settlements during the summer, when the batons sent out from England will probably be given to those whom it may be deemed wise to invest with a sort of civil power. The delegation of this power to meritorious chiefs will require the exercise of much discrimination, and the course His Excellency has pursued in not giving out these emblems of authority indiscriminately at the celebration is the best guarantee that they will be judiciously distributed. From this tentative measure, as well as from the influence of the celebration and the general policy of the Governor towards the Indians, we confidently anticipate the most happy results.

NEW WESTMINSTER, THURSDAY, JUNE 1, 1865.

THE CHILCOOTEN MURDERERS.—Mr. Moss arrived in this city on Tuesday with the two Indian prisoners Ahlan and Loozas. They were examined before the Hon. Mr. Brew yesterday and committed for trial. Ahlan quite admits having shot at Peter McDougal, but says he was only one of four who shot at him, but Loozas says he was alone in the matter. Loozas admits being present at the murder, but says he took no part in it, he only having shot one of the horses. Both these Indians say that Klatassan, the Chilcooten chief, one of those executed last year, insisted upon their assisting in the murder, threatening them with death if they refused. Ochpishermoo, the Indian who was brought down last year, was a witness against them. He identified them as having been present at the massacre, and it is stated that Ahlan afterwards pointed out the fatal wound in McDougal's body as having been inflicted by himself. Mr. Moss acted as interpreter to the Court. It is highly probable that a special commission will be issued to enable Mr. Brew to try these Indians and thereby avoid the needless expense and delay of waiting till the fall.

MISDEMEANOR.—We regret to learn that some thoughtless or evil disposed person has been injuring telegraph posts on the line above Yale. The public may not be generally aware of the passage of a law with respect to telegraph lines in this colony, in which there is a very stringent clause making it a misdemeanor for any person wilfully to destroy or interfere with telegraph lines or anything pertaining thereto. Such offence is punishable by fine, not exceeding £100, or imprisonment, not exceeding six months; the party so offending to be liable to the owners of such telegraph line for three times the amount of all loss and damage sustained. Such being the case it would be well for people to carefully avoid any interference whatever with the telegraph lines, as the company will be compelled to enforce the law in order to protect their property.

A MYSTERIOUS AFFAIR.—Victoria papers brought up by the last steamer give an account of the disappearance of Mr. Carswell, member of Parliament for Sooke District, and member of the firm of Hibben & Carswell, of Victoria. It appears that Mr. Carswell made one of an excursion party to Sooke on the Queen's Birthday, that he left the steamer at Thompson's Landing to pay a visit to Muir's store, a short distance off, and that he did not return, had never reached Muir's, and has not been seen or heard of since, although large numbers of people have searched the country for 30 or 40 miles around. An advertisement appears in the papers over the name of the firm, offering a reward of \$1,000 for his discovery. The affair is altogether one of a most mysterious and distressing character.

THE CELEBRATION.—Some surprise having been expressed respecting the very meagre and incomplete report of Thursday's proceedings which appeared in our columns, we have to say in explanation that pressing office duties rendered it impossible for us to be upon the ground during the latter part of the day, and that a promise that the secretary to the committee would supply us with the result of the races, &c., prevented our using other means to obtain the necessary data—a promise which we need hardly say was not kept.

TO CRICKETERS.—The Victoria Eleven will arrive here by the *Sir James Douglas*, on Thursday morning, the 8th inst., to play against the New Westminster Eleven. We have been desired to state that the presence of all cricketers is particularly requested on the cricket ground this afternoon at 4 o'clock for the purpose of making suitable arrangements for the reception of the Victoria Eleven.

THE OVERLAND TELEGRAPH.—Mr. Conway and Major Pope and party went up to Yale yesterday by the steamer *Lillooet*. Major Pope and party will proceed at once to Fort George to commence explorations. Mr. Conway goes through to the Junction (Clinton) to look after the working party.

THE SPAR TRADE.—We learn that Capt. Stamp, has chartered the ship *Aquila*, 1200 tons burden, now at San Francisco, to take a cargo of spars from Burrard Inlet. She will be due in ten or twelve days.

FROM VICTORIA.—The str. *Enterprise* arrived from Victoria on Tuesday evening, bringing 200 passengers of whom 134 were Chinese. We observed Capt. Stamp amongst the passengers. She also brought up 90 tons merchandise.

TO CORRESPONDENTS.—We must insist upon compliance with the good old rule of requiring every communication to be accompanied by the proper name of the writer. A communication is now in our hands awaiting compliance with this rule.

THE ALEXANDRIA ROAD.—We believe the contract for this road has been awarded to Mr. Robert Smith, for \$46,000, said to be \$12,000 lower than the next tender.

BY MAGNETIC TELEGRAPH!

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

SAN FRANCISCO, May 29.—The case of Williams and others of the Mexican emigration expedition was committed until to-morrow, Williams being released on \$2,500 bail, the others not asking to be admitted to bail. Alexander Campbell appeared as counsel for defence. W. T. Coleman, a prominent merchant of this city, died this morning. Professor Cohen, the astrologer, was arrested and held to answer on a charge of committing a rape. Private advices report the death of Col. John B. Kellogg at City Point, (Va.) April 25th. Col. Kellogg served in this military department from November 1861 to June 1864 as Commissary of Subsistence of the army of this coast. M. B. Farry made a complaint to-day before the U. S. Commissioner, charging Henry C. Bateman with taking complainant's letters out of the post-office, opening and reading them. In the U. S. Circuit Court the motion for appeal in the case of the city of San Francisco vs. the United States, involving the title to the outside or public lands, was denied. The mining share market continues depressed, and the whole list is again lower to-day. Legal tenders 7 1/2. Flour, a good home track demand prevails at current prices. Included in the sales since our last are Napa City \$14 and \$15 50. 1100 quarter sacks Oregon, chiefly magnolia, part for Marshallville, \$18 50 and \$14. Local mills and repacked Chili at former figures. Wheat is inactive. Barley, sales of 275 sacks domestic, \$1 75. The new crop has made its appearance in sacks, the first of the season, and are expected here during the current week. Oats dull; 300 and 400 sacks in lots at \$1 65 and 100 choice at \$1 80.

SALT LAKE CITY, May 29 (1 P.M.).—On Saturday about noon a party of Cheyenne and Arapahoe Indians cut and carried off the wire for some distance, and destroyed the posts for a few miles beyond St. Mary's station, about 160 miles east of this city, and during the afternoon attacked and burned the telegraph station. The operator, Mr. Sinclair, and three soldiers, the only men there, took refuge in an old cellar near by and defended themselves throughout the night. They were armed with Henry's rifles, and succeeded in driving away the red-skins. These men escaped to South Pass station yesterday. Major Baldwin, by order of Col. George, commanding the district, left for Bridger early on Sunday with 100 men to overtake and chastize the Indians. They took wire with them to repair the line, and will probably reach the break to-morrow, when it is hoped the line will be repaired and in working order. The men from St. Mary's report the Indians to have gone east from there.

SECOND DISPATCH.

SAN FRANCISCO, May 30.—In consequence of the proclamation of the President of the United States appointing Tuesday next as a day of humiliation, fasting and prayer, the bankers have agreed to close their places of business. Fare by the *Golden City*, which leaves on the 3rd of June: 1st cabin, \$187 50; 2nd cabin, \$100; steerage, \$70. Belcher mining company has declared a dividend of 51 per cent. Stock still depressed. Legal tenders 7 1/2 to 7 3/4. The slight decline is due to the large disbursements made by military department this week. Flour, large operations in Chili are understood to be pending. The steamer *G. S. Wright* arrived from Victoria. A fire broke out in the Cosmopolitan Hotel this afternoon, and about \$2,000 damage done; one man seriously burned. The Board of Supervisors have offered a reward of \$100 for the conviction of any person detected in giving false alarms of fire. The ship *Moundar* arrived, one hundred and forty days from Calcutta.

FROM NANAIMO.—The str. *Fideliter*, Capt. McCulloch, arrived from Nanaimo yesterday, bringing a few passengers, amongst whom we observed the Rev. E. White, formerly of this city. The *Fideliter* leaves for Nanaimo this morning. We learn that the Nanaimo coal is in very great demand in San Francisco. The company have the largest shipment last month of any previous one. The *Revere* is about ready to sail. She carries 1100 tons. The bark *Maria Scammel* had just arrived from San Francisco to load. Several others are expected to arrive shortly. The Harwood Coal Company are expected to commence operations in the fall.

TELEGRAPHIC.—The steamer *Geo. S. Wright* has been purchased by the Collins Telegraph Co. She is at present in San Francisco, and will probably arrive here in 8 or 10 days. It is expected that Col. Bulkley and other officials will come up with her and establish themselves here, making this the headquarters of the company.

ANTOINE.—H. M. ship *Beaver* has gone up the coast in search of this villain. We devoutly wish the expedition success.

THE COTTONWOOD ROAD.—The time for receiving tenders for this work was up yesterday, but we are of course unaware of the result.

Government Works.

MR. EDITOR.—Now that our Government are busy making roads &c. through our colony and will of course be wanting quantities of tools, nails, provisions, &c., &c., it is of importance to us that these should be supplied at the cheapest rates. Would it not be well if they would call for tenders for supplying the above-named articles, thereby saving at least 25 per cent. At present they are giving their numerous orders to men who cannot fill them without going and buying from their neighbors to do so. Consequently our Government is paying two profits instead of one. I believe there are men here who can supply them at a small advance on San Francisco rates. Let us have competition by all means.

Yours sincerely, TAX-PAYER.

Cariboo Letter.

[FROM OUR REGULAR CORRESPONDENT.]

MR. EDITOR.—Summer is at last shedding its genial influence over this ungenial part of the world; and although money continues tight, business is tolerably brisk. Nearly all the claims are being worked, and most of them are expected shortly to yield "pay." The Forest Rose gave a good prospect from the back shaft. This is a matter of considerable importance to Wilcox Creek, inasmuch as it is likely to open a new field for labor. The Hit-or-Miss still continues to pay well. The Hibernian is sinking on the same line with every prospect of success. This claim is situated where the town of Barkerville at present stands, and they have been obliged already to move one house, and the next shaft is to be sunk on the ground occupied by Mr. Strouss's store. The Saw-mill claim, on Stout's Gulch, after having undergone considerable repairs, is again being worked. There is no news of importance from any of the other creeks. All are preparing for a busy season.

The matter of chief interest on Williams Creek at the present moment is the death of John A. Fraser, C. E. This melancholy event has cast a deep gloom over the entire community. The high position which he held in the estimation of the public rendered his loss doubly felt. He expired under peculiarly painful circumstances, on Saturday the 20th inst. On Thursday it was remarked by some that his mind was slightly wandering; but supposing it to be a mere temporary fit no action was taken. Towards evening, however, the symptoms assumed a more alarming form, rendering the patient very violent. Medical aid was immediately procured, and for a time strong hopes of recovery were entertained. On the following day he appeared to be improving considerably, but during the succeeding night he became more violent than ever. In the morning Mr. McDonald went for Dr. Chipp, who was attending him, and although absent but a short time the unfortunate man seized the opportunity to put an end to his existence with a small pen-knife which, with that cunning peculiar to his disease, he had contrived to retain about his person. He received the most unremitting attention from first to last from his cousin, Mr. McDonald, and from his friends generally. His remains were borne to their last resting place by his Masonic brethren and by the largest concourse of friends ever before assembled in Cariboo for such a purpose. In the absence of a clergyman Dr. Brown read the burial service; and as we watched the closing grave many of us felt that death had robbed us of a kind and valued friend, one who possessed in an eminent degree that quality which is said to render man "the noblest work of God." The attack which deprived poor Fraser of his reason is believed by his friends to have been caused by the action taken by Mr. O'Reilly in the law suit connected with the Saw-mill claim, in which he was a shareholder, and upon whom devolved the duty of defending the claim. This, together with difficulties of a domestic nature, acting upon his singularly sensitive mind, produced physical debility to such an extent that reason became dethroned. John A. Fraser was a native of Canada, and was the son of Fraser, the discoverer of the river which bears his name. He was born in August 1833, and came to this country in 1863. He has found a grave in the land which his father gave to the world, and has gone where ambition ceases to rack the anxious brain and where the weary find rest.

ARAGATHALIAN.

Williams Creek, May 22nd, 1865.

The New School Buildings.

MR. EDITOR.—Can you inform an anxious public whether the grading now being done by the chain-gang, immediately in front of Mr. Calder's residence, is designed for the school buildings about to be erected? I am quite aware that the ground upon which the grading is being done is on Victoria Gardens, and consequently, ought to be sacred as a public pleasure ground; but when I look down these gardens and see a slice taken off the lower end for a favorite church I confess to considerable misgiving respecting the destiny of the balance. But surely, Mr. Editor, you will not, with all your admiration of the present Government, be a silent and indifferent witness of such official spoliation, should it turn out that my suspicions are well founded.

AGUS.

[We are not in a position just now to give our correspondent the information for which he asks, although we believe the Government incapable of attempting to encroach upon our already too limited pleasure grounds. Such a step would not only be a public wrong, but it would be a direct legal infringement upon the vested rights of those who purchased property fronting upon the Victoria Gardens. We believe it was quite decided that the school buildings should be put upon the six-acre reserve above the Royal Avenue, and presump there must be some other object in grading the piece of ground to which "Argus" calls attention.—Ed.]

My Rock-girt Isle.

The following touching lines were written by the late Dr. G. S. Ramsey, while an inmate of the insane asylum, Portland, Oregon, on hearing a plaintive old Scotch song which he had heard in his younger days sung by an old blind beggar in his native town:—

When I list to you chanting that sweet little song,
Years and distance away seem to flee;
I am youthful again, and I'm wailed along
To my rock-girt island of the sea.
There an old, blind, grey-haired beggar is seen,
And his voice, although hoarse, is sweet,
He is singing the same in far Aberdeen
To a gathering crowd on the street.

And the withering verdure in this lonely heart
For a moment or two seems to spring,
And I sigh when I feel the illusion depart,
When you cease any longer to sing.
Then oh! give me more of that soft wild strain,
Till in dreams of fond memory I sleep,
And this smouldering fire will not scorch my brain
If again like a child I can weep.

FROM THE MOUTH.—The *Cameleon* passed over the bar on Tuesday evening at nine o'clock, without experiencing any difficulty. Capt. Cooper was on board. The *Cameleon* went round yesterday to the Inlet for materials for prosecuting the work of erecting beacons.

FOR YALE.—The steamers *Reliance* and *Lillooet* left for Yale yesterday carrying a large number of passengers, and considerable freight.

HOLLOWAY'S OINTMENT AND PILLS.—Unerring Precision.—When the health is breaking down from the continuance of some weakening discharge, when ulcers refuse to heal and extending mischief is threatened, then is the time to try the potency of Holloway's healing Ointment and purifying Pills. No treatment for giving ease and safety leading to a cure can be compared to this. The Ointment cleans and cools the foulest and most angry sores, diminishes the inflammation, reduces the swelling, prevents the growth of proud flesh, and spares both pain and danger. Thousands testify, from their own personal experience, to the unvarying success attending the use of Holloway's medicaments in cases of ulcerated legs, enlarged veins, scaly skin, and swelled ankles.

culled from the works of the Best Writers, in all lan-
guages; Witty and Laughable Jokes and Anecdotes,
together with a most voluminous personal Correspondence
upon every imaginable topic, conveying at once infor-
mation the most varied and the most extensive.
The LONDON JOURNAL stands unrivalled for the
instructive, amusing and moral excellency of its con-
tents, the beauty of its illustrations, the clearness of its
type, the superiority of its paper, and for its cheapness.
Issued in Weekly Nos. 1d.; Monthly Parts, 6d.; Half-
yearly Vols., 4s. 6d. Vols. I. to XL. are now issued.
The LONDON JOURNAL may be had of every re-
spectable Bookseller in the Colonies, &c., or by ordering
in any part of the world.

ALL CURES MADE EASY!!
HOLLOWAY'S OINTMENT.

**Bad Legs, Ulcerous Sores, Bad
Breasts and Old Wounds.**

No description of wound, sore, or ulcer can resist the
healing properties of this excellent Ointment. The
worst cases readily assume a healthy appearance when
ever this medicament is applied; sound flesh springs
up from the bottom of the wound, inflammation of the
surrounding skin is arrested, and a complete and per-
manent cure quickly follows the use of the Ointment.

**Piles, Fistulas and Internal Inflam-
mation.**
These distressing and weakening diseases may with
certainty be cured by the sufferer themselves, if they
will use Holloway's Ointment, and closely attend to the
printed instructions. It should be well rubbed upon
the neighbouring parts, when all obnoxious matter will
be removed. A poultice of bread and water may some-
times be applied at bed time with advantage, and more
scrupulous cleanliness must be observed. If those who
read this paragraph will bring it under the notice of
such of their acquaintances whom it may concern, they
will render a service that will never be forgotten, and a
cure is certain.

Rheumatism, Gout & Neuralgia.
Nothing has the power of reducing inflammation and
subduing pain in these complaints in the same degree
as Holloway's cooling Ointment and purifying Pills.
When used simultaneously they drive all inflammation
and depravities from the system, subduing and remove
all enlargement of the joints, and leave the sinews and
muscles lax and uncontracted. A cure may always be
effected, even under the worst circumstances, if the use
of these medicines be persevered in.

**Eruptions, Scald Head, Ringworm &
other Skin Diseases.**
After fomentation with warm water, utmost relief and
speediest cure can be readily obtained in all complaints
affecting the skin and joints, by the simultaneous use of
the Ointment and Pills. But it must be remembered
that nearly all skin diseases indicate the depravity of
the blood and derangement of the liver and stomach;
consequently, in many cases, time is required to purify
the blood, which will be effected by a judicious use of
the Pills. The general health will be readily improved,
although the eruption may be driven out more freely
than before, and which should not be promoted; per-
severance is necessary.

**Sore Throats, Diphtheria, Quinsy,
Mumps & all other Derangements
of the Throat.**

On the appearance of any of these maladies the Oin-
tment should be well rubbed at least three times a day
upon the neck and upper part of the chest, so as to
penetrate to the glands, as salt is forced into meat,
this course will at once remove inflammation and ul-
ceration. The worst cases will yield to this treatment by
following the printed directions.

**Scrofula or King's Evil and Swelling
of the Glands.**

This class of cases may be cured by Holloway's puri-
fying Pills and Ointment, as their double action of puri-
fying the blood and strengthening the system renders
them more suitable than any other remedy for all com-
plaints of a scrofulous nature. As the blood is impu-
rified, the liver, stomach and bowels, being much deranged,
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following
cases:
Bad Legs. Chapped Hands. Scalds.
Bad Breasts. Contracted and Sore Nipples.
Burns. Stiff Joints. Sore-throats.
Dunghies. Elephantiasis. Skin-diseases.
Bite of Mosquitoes. Fistulas. Scoury.
and Sand-Flies. Gout. Sore-heads.
Coco-bay. Glandular Swellings. Tumors.
Chicago-foot. Ulcers. Wounds.
Corns (soft). Lumbago. Cancers.
Chilblains. Piles. Rheumatism. Yaws.

Sold at the establishment of PROFESSOR HOLLOWAY
244, Strand, (near Temple Bar) London; and by all re-
spectable Druggists and Dealers in Medicines through-
out the civilised world, at the following prices:—1s.
1ld., 2s., 9d., 4s., 6d., 11s., 22s., and 33s. each Pot.

*There is a considerable saving by taking the
larger sizes.
